

I can count and recognize numbers 1-20.

A maze of numbers from 1 to 20 arranged in a path. The path starts at the number 1 on the right side and ends at the number 20 on the left side. The numbers are: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20. There are several stars and two unicorns scattered throughout the maze. The text 'Start at 1' is written near the number 1. The text 'Color/dob the correct path. Follow the path from 1-20' is written at the bottom right.

Color/dob the correct path.
Follow the path from 1-20
