

Finding a Home

The Pilgrims took a boat and sailed across the ocean. They were cold and hungry when they landed in America. The first winter in America was **difficult**. They did not have enough food and were not **prepared** for the cold. Many of the Pilgrims did not live. The Native Americans helped the Pilgrims by teaching them how to plant food that would grow well. They showed them how to plant corn, wheat, barley and peas. After the first **harvest**, the Native Americans and the Pilgrims shared a big meal together. This was the very first Thanksgiving.

*First highlight the answer to each question. Then write the answer.

1. What did the Native Americans do to help the Pilgrims?

2. How did the Pilgrims get to America?

3. Why did the author of this text write these words in bold: difficult, prepared, and harvest.
